Leading trade fair for security
September 17 – 20, 2024

An opportunity for start-ups

The highly multifaceted security industry is constantly evolving. Demands on the latest technologies and processes are growing and becoming a challenge. International start-ups, with all their innovative and unique business ideas, have become an indispensable part of the industry, driving significant momentum in a number of areas. For the first time, security essen 2024 will offer newly-founded companies a dedicated platform in Hall 5 where they can unveil their forward-facing ideas and solutions.

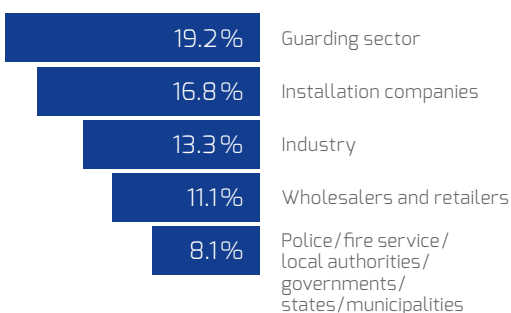

Meet the experts here

More good reasons to attend:

- Take advantage of this central and comprehensive platform to achieve major visibility for your company by taking part.
- Convince established industry names of your innovative ideas.
- Make important contacts and build your network.
- Expand your knowledge with the trade fair's informative support programme.
